Submission Instructions
When preparing your symposium or panel presentation, please carefully follow the instructions below:

All abstracts must be prepared in plain text, in understandable English with no embedded symbols or formatting characters. Submissions may not include charts, graphs, tables or references. Please spell out the symbols (alpha, beta, microns, picomolar, etc.) or translate them (mean, chi square, etc.) in your abstract submission.

Limit each individual abstract to 1,600 characters in length, including spaces. Abstracts longer than 1,600 characters will not be accepted. The 1,600-character limit applies to the abstract body only and DOES NOT include the title, authors, and optional funding source information.

A confirmation email will be sent when you register and also when submitting or updating an abstract. If you do not receive a confirmation email upon submitting your abstract, please contact meetings@sprweb.org. Be sure to check your spam email file first.

Symposia and Panel Discussions

• Prepare a summary abstract of the symposium as a whole (less than 1,600 characters, including spaces). The 1,600-character limit applies to the abstract body only and DOES NOT include the title, authors, and optional funding source information.
• Use capital letters for the title of the abstract.
• List the names and affiliations for the symposium chair, each presenter, and the discussant under the title.
• List the affiliation/institution in English (i.e., University of Wisconsin). Do not abbreviate the affiliation. Spell it out such as University of Wisconsin rather than U of W or UW.
• Provide a concise description of your proposed presentation in narrative form.
• Prepare 4-5 (maximum of 6 including summary abstract) separate abstracts for each symposium submission.
• Adhere to the general abstract guidelines for all individual symposium abstracts (e.g., 1,600 character limit, English text, funding information, etc.).
• Include authors and their affiliations. If you are a submitting author and an author for any of the abstracts, be sure to add your name to the list of authors.
• A keyword index will be included in the journal supplement, along with the published abstract. Please select one to three descriptors to describe your abstract.
• If you wish a funding source for your research to appear in the abstract, please include it under the "Optional - Funding Source" box on the submission form. Please DO NOT list the funding source in the body of the abstract.
• Enter individual supporting abstracts in the order of their presentation.
• Individual abstracts may be added after the summary abstract
• Please provide a current e-mail address, with your submission. The SPR Office will communicate with the submitting author through the e-mail address that is given at the time of registration. Should this e-mail address change at any time before February 5, 2018 you may log into the system and update your information. If the e-mail address changes after February 5, send an email to meetings@sprweb.org with that change.

• **Proofread your submission.** SPR is not responsible for author errors. Please check the formal name and spelling of your university; we receive numerous submissions that include the incorrect spelling of university affiliations, especially if a university name includes any special characters. Please double-check the formal spelling of your institution's name.

• Abstracts may be edited until 11:59 p.m. (PDT) on February 5, 2018.

**Select a Presentation Type:**
- Symposium
- Panel Discussion

**Topic**
Choose one topic that is most relevant for your submission. If you choose “Other” please define it in the field to the right.

- Aging
- Attention
- Behavioral medicine
- Biofeedback
- Cognitive control/executive functions
- Couples/family research
- Decision-making
- Emotion/affect
- Ergonomics
- Genetics
- Immunology
- Individual differences
- Infants/children/adolescents
- Intervention research
- Learning/conditioning
- Memory
- Motivation
- Neurological disorders/neuropathology
- Non-human animals
- Pain
- Personality
- Pharmacology
- Psychopathology
- Quantitative specialty
Sensation/perception
Sleep
Social factors
Speech/language
Unconscious processes
Other

Descriptors
List up to three descriptive words for the program index. At least one descriptor must be entered. These descriptors will be used in the keyword index.

Submit
You must click on “Submit” to actually submit your symposium or panel discussion proposal.

Questions?
Should you have technical questions about submitting your abstract, please click Support at the top of the page.

If you have any questions about programming, contact Jane Shepard at the SPR Office at meetings@sprweb.org or call +1 (608) 443-2472, ext. 137.

Sample Abstract
A SAMPLE ABSTRACT FOR THE SPR ANNUAL MEETING
Kyra A. Bradley¹, Max R. Brown¹, Julie A. Montor², and Greg M. Smith²
¹University of Wisconsin and ²University of Alabama

SPR encourages submission of abstracts describing new research on the interrelationships between the physiological and psychological aspects of behavior. The title of the abstract should be concise and descriptive and entered in capital letters. List all authors using their full first and last names. Next, list all institutions using numbers to match the author to the institution (see above). Do not include a department or location. Limit the abstract to 1600 characters in length (not including the title or authors). Longer abstracts will be truncated at 1600 characters. All abstracts must be prepared in plain text, in English with no embedded symbols or formatting characters. Submissions may not include charts, graphs, tables or references. Please spell out the symbols (alpha, beta, microns, picomolar, etc.) or translate them (mean, chi square, etc.). If you wish a funding source for your research to appear in the abstract, please include it under the “Optional – Funding Source” box on the submission form. Please do not list the funding source in the body of the abstract. If there is no funding source, please leave this box blank. Proofread your submission. If included in the program, your author-prepared abstract will be published exactly as it appears on your electronic submission.
